DETAILED ACTION

Response to Amendment

1. The finality of the Office action of January 16, 2008 is hereby withdrawn in view of new grounds of rejection presented below. Applicant's arguments with respect to claims 1 and 3-12 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 3-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to base claims 1, 6, and 9, it is not certain where "a radial dimension of the tubular body" is located and measured; and it is not certain what feature of the onion portion is being positioned and measured with respect to the radial dimension of the tubular body. Also, with respect to claim 6, it is not certain whether the barbs comprise the onion portion or are distinct parts connected with the onion portion. Also with respect to base claim 9, "the ribs" lacks antecedent basis.
